Entry	Notes
Deadline for submission of documents	
Required information	Entry
Deadline for submission of documents	Information on the application deadline applicable to your degree programme can be found here. Attention: This may be a cut-off deadline. Applications received after this date will not be considered. If no upload is possible for the documents listed here, these documents (please do not submit in plastic sheets, folders or loose-leaf binders) must be sent by post with the application form, and they must be received by the application deadline at the very latest. The documents do not need to be certified. It is recommended to submit these documents as early as possible, as processing can take some time and the semester and the courses already start in October. It is in your own interest to ensure that the documents are complete, otherwise your application cannot be processed or can only be processed with a delay. You will not receive any further reminders from us to submit documents for your application. This checklist is the only way to notify you which documents, if any, still need to be submitted here in your application account. Each document you submit – as soon as it is considered complete and correct – will be recorded in the system as part of the application processing. It will then be hidden and no longer be included in the list below. As soon as all documents are submitted, the menu item "Documents to be submitted" changes to "Documents complete". Please note that after your documents have been received and assessed, a note may appear in the line "Important Information" if documents have been submitted insufficiently or incompletely.

Application for admission enrolment	
Required information	Entry
Application for admission enrolment*	The application must be submitted by post. You must first generate the application after submitting it online.
	I will submit these documents
	After submitting, the page "Submission was successful" appears. To generate the application form, click on the "Print" link there. It is also possible to do this under "My applications" on "Print" for the application submitted online and then on "Application or information".

Current Transcript of Records	
Required information	Entry
Current Transcript of Records*	I will submit these documents
	Proof of all completed academic and examination achievements. The performance record should generally include 160 CP or a comparable level of completed credits.
Important information
